

Reporting URS Data In Year 1

State Data Infrastructure Coordinating Center
NASMHPD Research Institute

Ted Lutterman

Robert Shaw

SDICC Web Site

- Latest URS Tables, Data Definitions, and Reporting Guidance
- Information about State DIGs
- Applications for Technical Assistance and reports on TA Activities
- On-line Web Database for States to Enter URS Data, with built in edits
- Future: Reports Using URS Data

SDICC Technical Assistance

- Finalizing with CMHS plans for Technical Assistance (TA)
- Limited Resources for TA
- Both Individual State TA and Group TA
- Formal Application from SMHA, review by SDICC and CMHS
- Potential Topics for TA:
 - HIPAA, Web Based Reporting, Benchmarking, Risk Adjustment, Using Data for Planning, Integrating Data Systems, Unique Identifiers, Measuring Need for Services

URS Data Submission

Methods of URS Data Submission

1. Web-Based Reporting
2. Microsoft Excel Spreadsheet
3. Paper Submission

With Every Table, report both data and for each table let us know how your submission differs from the standardized definitions and reporting guidelines. Supply information on steps needed to complete the table in future years.

After Data Submission

- SDICC will run data edits for completeness and consistency
- Draft Reports will be sent back to states for their review
- Development of national database for CMHS
- National Reports to be determined by CMHS

SUBMISSION AND ACCEPTANCE OF DIG TABLES
