FEDERAL & STATE NEWS

First Responders: Behavioral Health Concerns, Emergency Response, and Trauma

Emergency medical services personnel, firefighters, and police officers are often the first on the scene to aid those experiencing disasters and other traumatic situations. This bulletin reviews existing literature and provides insight into behavioral health issues experienced by first responders. It may be helpful to first responders in maintaining their own health and managers seeking to support the behavioral health of their teams. [Read more.](#)

Homicide and Suicide Death Rates for Persons Aged 15–19 Years — National Vital Statistics System, United States, 1999–2016

Suicide rates among U.S. teens ages 15-19 are higher than homicide rates, whereas in the decade prior to 2010 homicide rates were higher than suicide rates. [Read more.](#)

Illinois to Expand Medicaid MH, Substance Abuse Treatments

Ohio Medicaid to Change How It Pays For Addiction, Mental Health Care

Effective July 1, Ohio Medicaid behavioral health providers will deal directly with private companies that manage Medicaid plans for the state rather than being paid directly by the state. [Read more.](#)

Pennsylvania House Passes Bill to Improve Mental Health Emergency Services

The Pennsylvania House of Representatives unanimously passed House Bill (HB) 1997, a legislation that provides for the medical assistance deemed eligibility program for inpatient behavioral health services and is intended to avoid higher emergency room costs and prevent, if possible, these individuals from becoming involved in the criminal justice system. [Read more.](#)

RESEARCH

Suicide Rates Rising Across the US: Comprehensive Prevention Goes Beyond a Focus on Mental Health Concerns

Suicide rates have been rising in nearly every state, according to the latest Vital Signs report by the Centers for Disease Control and Prevention (CDC). In 2016, nearly 45,000 Americans age 10 or older died by suicide. Suicide is the 10th leading cause of death and is one of just three leading causes that are on the rise. [Read more.](#)

Infographic: Fentanyl and Other Synthetic Opioids Drug Overdose Deaths

This infographic summarizes a study that finds that nearly half of opioid-related overdose deaths involve fentanyl. [Read more.](#)

Mental Health-related Physician Office Visits by Adults Aged 18 and Over: United States, 2012–2014

This data brief examines adult mental health-related physician office visits by specialty and selected patient characteristics. Research indicates that during 2012–2014, an estimated annual average of 30 million mental health-related physician office visits were made by adults aged 18 and over. [Read more.](#)

FREE EDUCATIONAL OPPORTUNITIES

JUNE 28: Criminal Justice and Serious Mental Illness: Moving to Patient Centered Care

Attendees of this webinar will learn about the factors contributing to the current situation, gaps in the systems, how to improve access to care in the community and the role of diversion programs such as Mental Health Courts and Drug Courts in decreasing criminalization of serious mental illness and substance use disorders. [Register now.](#)

FUNDING & AWARDS

State Opioid Response Grants

The Substance Abuse and Mental Health Services Administration (SAMHSA) is accepting applications for fiscal year (FY) 2018 State Opioid Response Grants (Short Title: SOR). The program aims to address the opioid crisis by increasing access to medication-assisted treatment using the three FDA-approved medications for the treatment of opioid use disorder, reducing unmet treatment need, and reducing opioid overdose related deaths through the provision of prevention, treatment and recovery activities for opioid use disorder (OUD) (including prescription opioids, heroin and illicit fentanyl and fentanyl analogs). These grants will be awarded to states and territories via formula. The program also includes a 15 percent set-aside for the ten states with the highest mortality rate related to drug overdose deaths.
